

Ultimate Corrosion Protection

Designed for High Performance in any HVAC&R, DIY, Commercial or Industrial Application

CORROSION PROTECTION PLUS CLEAR

Suitable for protecting any metallic surface

- ✓ Hydrophilicity - ASTM C813 (70 degrees complies)
- ✓ Abrasion resistance - Minor scratches evident
- ✓ Heat resistance - Fully complied with the test parameters No wrinkling, cracking or other discontinuity
- ✓ Acid resistance

CORROSION PROTECTION PLUS BLUE

Ideal for heat exchange coils in HVAC&R applications

- ✓ Water based - Safe to use
- ✓ Heat resistance - Coated panels tested in ovens at 200°C & 400°C fully complied with the test parameters
- ✓ Hydrophilicity - Contact angle of 68°
- ✓ 46,000+ Hour salt spray protection - Continued test hours continue to accrue

AERIS COAT ULTRA

Specifically designed for long-term protection across industrial scale heat exchange coil and HVAC&R applications

- ✓ Up to five year warranted corrosion protection
